

Please do not mandate that New Jersey change its handling of the "do not call" list. It's just fine the way it is. Being a real estate agent, I would bet anything that the National Association of Realtors is behind the drive to get "do not call" overturned. I DO NOT support this position. As an early-riser, I was often asleep when the unsolicited calls came in at 8:00 p.m. or 9:00 p.m. These calls disrupted my lifestyle and I'm sure they disrupted the lives of many others -- those where the ringing phones woke up young children, the sick and the infirmed. These calls are a cruel intrusion into my life. Please leave New Jersey's do not call rules alone.
